SKILLS

Vue 3 / Vue.js / Nuxt.js / Pinia / React Native

TypeScript / JS (ES6+) / HTML5 / CSS3

UI/UX Design / Web Design / Design Systems

Cypress / End to End / Unit Testing

Node.js / NestJS / REST APIs

Ruby / Go / Elixir

INTERESTS

React Native for Mobile Development

Node.js (NestJS) for Scalable Backend APIs

C# / Unity for Game Development

Python for Artificial Intelligence / ML

Zig for Low-Level Programming

GraphQL for API

EDUCATION

MG University

BTech, EEE

2011 - 2015

SUMMARY

Experienced Frontend Developer with 5+ years of Web development using latest frontend frameworks and 4 years in web design. Skilled in crafting responsive, user-centric applications using **TypeScript, Vue 3, and React Native**. Adept at integrating REST APIs via Node.js (NestJS), building scalable design systems, and implementing CI/CD pipelines. Passionate about blending design with functionality to deliver seamless digital experiences.

WORK EXPERIENCE

Frontend Developer

Aspire Fintech | Singapore

Feb 2022 - PRESENT

- Led the development and maintenance of cutting-edge Vue.js web applications with a mobile-first approach.
- Collaborated closely with the User Experience (UX) team to craft innovative applications that prioritize user satisfaction.
- Collaborated on mobile-first features using React Native and integrated backend services via NestJS
- Worked in tandem with backend developers to seamlessly integrate backend data services via REST APIs.
- Demonstrated proficiency in End-to-End (E2E) testing by utilizing Cypress for comprehensive web application testing.
- Acquired advanced skills in Vue 3 composition API and the Quasar Framework, enhancing development capabilities.
- Implemented efficient CI/CD pipelines utilizing GitHub Actions and other versioning tools for streamlined development workflows.

UI/UX Developer

BLP Industry.AI | Bengaluru

Nov 2019 - Feb 2022

- Developed comprehensive Design Systems and Specification guidelines to facilitate seamless collaboration with Developers.
- Created visually appealing and functional User Interfaces for various platforms, including web, mobile applications, and dashboards, utilising HTML5, CSS3, and Vue.js.
- Collaborated closely with Frontend Developers to ensure the realisation of desired design specifications.
- Facilitated client interactions to gain a deep understanding of product requirements and user needs, aligning designs with business objectives.
- Implemented UI Integrations and Animations using CSS and JavaScript to enhance user experience.

WORK EXPERIENCE AS WEB DESIGNER

UI Designer

[Loktra Technologies](#) | Bengaluru

Sept 2018 - Nov 2019

- Meticulously crafted End-to-End Design flows for various Product Modules, offering a seamless and intuitive user journey.
- Leveraged expertise in HTML, CSS, and JavaScript to bring designs to life, ensuring pixel-perfect implementation and optimal user interactions.
- Successfully executed Cross-Platform Designs, adapting user interfaces to different screen sizes and resolutions, while maintaining design integrity.
- Collaborated closely with cross-functional teams, including developers, product managers, and stakeholders, to align design solutions with project goals and objectives.
- Continuously kept up-to-date with industry trends, emerging technologies, and best practices in user interface design, contributing to the team's growth and knowledge base.

UI Designer

[GreedyGame](#) | Bengaluru

Jul 2016 - Sept 2018

- Created interactive Prototypes to visualize and communicate design concepts, streamlining the feedback and iteration process with stakeholders.
- Designed game interfaces using Photoshop and Illustrator.
- Developed Android 2D games using Unity and C#.
- Enhanced user engagement with Native Ad Experiences.
- Created Interaction Designs using Marvelapp and Moqups.
- Designed user-friendly ads to improve user acquisition.
- Developed high-fidelity mockups for idea presentations.
- Produced UX wireframes and storyboards for effective design planning.

Web Developer

[Kings Learning](#) | Bengaluru

Jun 2015 - Jul 2016

- Proficient in web design using HTML5 and CSS3, with a strong focus on creating UI elements for both web and app interfaces using tools like Photoshop and Fireworks.
- Produced dynamic digital advertisements using tools such as Google Web Designer and After Effects, and demonstrated 3D modeling expertise with Blender.
- Played a pivotal role in the development of Android applications and websites for the company, catering to a substantial user base, by applying my expertise in Android development and web design (HTML5, CSS3).
- Successfully contributed to projects that directly impacted active users, ensuring a seamless and engaging experience through responsive web design and user-friendly Android applications, resulting in increased user satisfaction and retention.
